

FEATURES

- Universal 85 - 264VAC or 120 - 370VDC Input voltage
- Operating ambient temperature range: -30℃ to +70℃
- High efficiency, high reliability and long lifetime
- LED indicator for power on
- Output short circuit, over-current, over-voltage protection
- High I/O isolation test voltage up to 3000VAC
- Emissions compliant to CISPR32/EN55032 CLASS B
- Withstand 5G vibration test
- Operating altitude up to 5000m
- Design refer to UL/IEC62368-1, EN60335-1, GB4943.1
- 3 years warranty

The LM35-10Cxx series of power converter design features triple output versions, which can independently supply 3 different loads in the system. the converters can be used in harsh working environments with an ambient temperature range from -30℃ to +70℃, without the need of the fan for further heat dissipation. In addition, It EMC immunity performance meets the requirements of IEC61000 standard and meet emission standard CISPR32/EN55032, class B without any external components, thus providing excellent EMC protection. They also meet IEC/EN/UL62368, EN60335, GB4943 safety standards. The converters integrate a variety of protection features and offer a high-performance and high cost-effective providing the best power solution for a variety of industries such as industrial control equipment, instrumentation and smart home and building equipment application.

Note: 1. *Working current range: If any one of the 3 outputs arrive at the maximum current, the total output power cannot exceed the rated power and working time < 3s;
 2. *The typical efficiency tested under input voltage at 230VAC;
 3. *Use suffix "Q" for conformal coating.

Product Characteristic Curve

Note: 1. With an AC input voltage between 85 -115VAC and a DC input between 120 -160VDC the output power must be derated as per the temperature derating curves;

2. This product is suitable for applications using natural air cooling; for applications in closed environment please consult Mornsun FAE.

Dimensions and Recommended Layout

Note:

- For additional information on Product Packaging please refer to www.mornsun-power.com. Packaging bag number: 58220066;
- Unless otherwise specified, parameters in this datasheet were measured under the conditions of Ta=25℃, humidity<75%RH with nominal input voltage and rated output load;
- All index testing methods in this datasheet are based on our company corporate standards;
- In order to improve the efficiency, there will be audible noise generated when work at light load, but it does not affect product performance and reliability;
- We can provide product customization service, please contact our technicians directly for specific information;
- Products are related to laws and regulations: see "Features" and "EMC";
- The out case needs to be connected to PE (⊥) of system when the terminal equipment in operating;
- CAUTION: Double pole, neutral fusing. Disconnect mains before servicing."/ "ATTENTION: Double pôle/fusible sur le neutre. Débrancher l'alimentation avant l'entretien;
- Our products shall be classified according to ISO14001 and related environmental laws and regulations, and shall be handled by qualified units;
- The power supply is considered a component which will be installed into a terminal equipment. All EMC tests should be confirmed with the final equipment. Please consult our FAE for EMC test operation instructions.
